

*Sally Bryant*

Dr Sally Bryant was born in Tasmania and gained her doctorate in marsupial physiology at the University of Tasmania in 1987. She worked for eighteen years as a wildlife scientist with the Tasmanian Government, including six years as manager of the Threatened Species Section. She has conducted research on remote islands throughout the world and published extensively on wildlife conservation issues. Sally now works for the Tasmanian Land Conservancy and is an Honorary Research Associate with the School of Zoology UTAS. Her popular ABC Radio wildlife talkback segment has been running fortnightly since 1999.

*Tim Squires*

Tim Squires grew up bushwalking in Tasmania's national parks and surfing on its windswept coasts. He gained a deep admiration for the Tasmanian wilderness and developed a passion for natural history art and illustration. He completed his masters in illustration and design at the Tasmanian School of Art in 1993. Since 1995 he has worked as a graphic artist, illustrator and designer for the *Mercury* in Hobart. He lives close to the foothills of Mt Wellington, with his wife, Teresa, and daughters, Eva and Ruby.

ANIMALS OF TASMANIA

# ANIMALS OF TASMANIA

## WILDLIFE OF AN INCREDIBLE ISLAND

*Sally Bryant and Tim Squires*

This finely crafted volume documents and describes a host of Tasmanian species, including the iconic Tasmanian Devil, the mysterious Thylacine, the magnificent Wedge-tailed Eagle and the endangered Orange-bellied Parrot. These animals and many more have their own stories of survival, tragedy and hope in one of the world's last remaining wild islands. This appealing and accessible book is sure to be welcomed by all who love art, natural history, and the very beautiful animals of Tasmania.
